## MANAGERIAL ACCOUNTING

*Advanced Certification Programme*

Managerial Accounting is a Professional Certification certified by EIU-Paris. This course has been designed to give executives an intensive understanding of the concepts, applications and implications of various managerial accounting processes. Take this course to reinforce the importance of managerial accounting skills in all aspects of company decision-making.

Today's enterprises must navigate markets affected by global forces, advances in internet-based technologies and increasingly sophisticated corporate strategies used by their competitors

At the same time, the interface between business and financial management is becoming more complex and more significant in determining outstanding corporate performance.

Whether you are a business professional who wants to use managerial accounting to advance your career, a business owner who needs to apply managerial accounting concepts to make better decisions, or even a business student who wants to learn the fundamentals of managerial accounting, start your path to mastering an in-demand skill of Managerial Accounting through this certified course

## What I will learn?

- At the end of this program, students should be competent in the following areas:
- Explain the various functions of a management accounting system, and its relationship to both cost accounting and financial accounting.
- Understand and apply cost terms and concepts. Distinguish between the effect and implications of cost behaviour analysis.
- Develop functional analysis of cost-volume-profit and break-even concepts, and their implications.
- Distinguish between job order costing, and process costing systems.
- Describe and appraise the methodologies of cost accumulation for stock valuation and profit measurements.
- Understand the advantages and disadvantages of absorption and variable costing, in the context of decision-making, planning, and control.
- Understand the various types of variances and their impact on standard costing.
- Understanding, and preparation of budgets; Master, Production, Cash, and Flexible.

## Requirements

- No prior experience is required. We start from the basics
- You'll need access to Microsoft Office (Word, PowerPoint, Excel) to download and practice with the supplemental course materials

## Course Structure

The programme is structured into 32 units which have further been arranged into “bite-size” lessons for longer retention and convenient application – which is the desired outcome of true education. Each lesson includes reading requirement and a video.

## Sample Certificate

THE DUAL CERTIFICATE awarded by [European International University, Paris](#) & by [Pedagog](#)

For queries or training in bulk contact  
[hello@pedagog.ac](mailto:hello@pedagog.ac)

Recognizing the growing international nature of business, the Managerial Accounting course certified by EIU-Paris has been designed by a team of experts under the able guidance of a veteran Mr. Pete Nicolau, (Master in International Business, Master in Diplomacy and Trade).

### Assessment/Reinforcement

This is a Premium Coaching Course; hence the type of assessment is designed not to penalise you for getting anything wrong but to reinforce the principles from each Lesson. This is positive reinforcement and the basis of Academic Coaching. This assessment is based on the premise: What's worth remembering is worth repeating. No real teaching takes place until learning has taken place.

### Duration

Maximum duration of the course is six-months. However, this customized course can easily be successfully completed at your own pace and in your own space, even within a few weeks.

### Course Fee

The Course is originally priced as 300 USD which includes a certification from European International University, Paris including its Alumni Status after the achievement. For more information or queries Please mail to [hello@pedagog.ac](mailto:hello@pedagog.ac)
