Diploma in TFL is a comprehensive program designed for forward thinking and future teachers who committed empower young minds to reach their full potential. Engaging a Learning Coach has become very expensive and out of reach of millions of teachers who need it. As a result, it has become the privilege of the rich widening the gap between perceived classes. In a digitized world, TFL brings the Coach to the Learner at a fraction of the cost making it accessible and affordable to all teachers.

### What I will learn?

This Diploma is specifically designed for Educators in Pre-primary, Primary and High School. Besides equipping you with the knowledge to inspire you to value the critical role you play in a Learner's academic path; this course shows you how to step up to your role as an equal partner in Education. You will understand why Teaching is not just a job, it is a Calling. You will learn how to connect with your Learners so that while you teach, Learning also takes place. Hence, TEACHING FOR LEARNING. The Diploma Certification from an Accredited French University, [www.eiu.ac](http://www.eiu.ac) Paris adds to the value further after the completion of this course

Professional Diploma in Teaching for Learning is a customized professional and personal development program for teachers worldwide to promote student achievement and preparation for Global Competitiveness. This capacity building program is specifically designed for teachers in public and private schools in America, Asia, Africa and Australia. Diploma in TFL shall build and prepare the teachers to groom the Learners for the classroom and life, thus making them Resilient Learners i.e. an engaged Learner ready to learn in and out of the classroom. The Professional Diploma Certification is approved & awarded by European International University, Paris

## **DR. PAUL CHARLES | PROF. DR. EDWARD ROY KRISHNAN**

Welcome all! Bringing education to the masses is the aim of our Ed-Tech platform-The Pedagog  
We invite early adopters and members with exclusive benefits and partnerships to our high-tech platform which is already being used by a number of private organisations and individual learners.  
We at Pedagog work hard to bring closer the most desired skill-based courses, degrees & diplomas for aspiring learners globally.

### **PROFESSIONAL DIPLOMA IN TEACHING FOR LEARNING**

- This professional diploma aims at Building the Capacity of a Teacher. It is a 100% Online Accredited Certificate Course, which is an ideal investment for all the aspiring teachers hopeful of becoming global educators and even experienced teachers equipping them with contemporary teaching techniques.
- It is a comprehensive program designed for anyone who wants to nurture their career in education. The customised curriculum of TFL is guaranteed to groom the educators into forward thinking and futuristic teachers; committed to empower young minds to reach their full potential.
- Engaging a Learning Coach has become very expensive and out of reach of millions of teachers who need it. As a result, it has become the privilege of the rich, widening the gap between perceived classes. In the digitized world, TFL brings the Coach to the Learner at a fraction of the cost making it accessible and affordable to all teachers worldwide.
- Besides equipping you with the knowledge to inspire you to value the critical role you play in a Learner's academic path; this course shows you how to step up to your role as an equal partner in Education. Hence, you will understand why Teaching is not just a job, it is a Calling.
- You will learn how to connect with your Learners so that while you teach, Learning also takes place. Henceforth, TEACHING FOR LEARNING.

**The aim of this Course transcends the goal of mere transmitting of information but Teaching For Learning is designed for transformation:**

- Transformation of the Mindset of the Educator towards himself/herself (as an individual),
- Transformation of Learning (as the needed skill for the future),
- Transformation of the Learner (as not just the recipient of knowledge but the channel of change),
- Transformation of Parents (as custodians of change agents) and
- Transformation of the school (as incubators of innovation, creativity and future leaders).

## Certification

Diploma in TFL is a customised Professional and Personal Development coaching course for the teachers of Private and Public schools of America, Asia, Africa and Australia. It has been tailored to build the capacity of educators to promote student achievement and preparation for global competitiveness.

The candidates will be awarded Globally recognised Dual certification as follows:

Certificate from European International University, Paris - Accredited French University, ([www.eiu.ac](http://www.eiu.ac))

Certificate from Pedagog- Blockchain Based Global EdTech Tutoring Platform (<https://pedagog.ac>) which adds to the value further to explore job opportunities worldwide.

On the successful completion of the course you will also be given the opportunity to become a Certified Resilient Learning Coach by The Resilient Learning Institution on Pedagog, which shall build and prepare the teachers to groom the Learners for classroom and life, thus making them Resilient Learners i.e. an engaged learner ready to learn in and out of the classroom, at a discounted rate, with many profitable professional opportunities worldwide. So this adds on another feather in the cap.

## Course Structure

Diploma in TFL is structured into six modules which have further been arranged into “bite-size” lessons for longer retention and convenient application – which is the desired outcome of true education. Each lesson includes reading requirement and a video.

## Assessment/Reinforcement

This is a Premium Coaching Course (for Continuous Professional Development) for Educators; hence the type of assessment is designed not to penalise you for getting anything wrong but to reinforce the principles from each Lesson. This is positive reinforcement and the basis of Academic Coaching. This assessment is based on the premise: What's worth remembering is worth repeating. No real teaching takes place until learning has taken place.

The type of questions for assessment will be: Multiple Choice and Fill in the Blanks, Reflection Type Questions and at the end of each Module there will be a Response-based Self-assessment question.

## Duration

Maximum duration of the course is six-months. However, this customized diploma can easily be successfully completed at your own pace and in your own space, even within a month.

## Course Fee

The Course Fee can be checked on <https://pedagog.ac/asti> which includes a certification from European International University, Paris including its Alumni Status after the achievement along with the certification from Pedagog.ac United Kingdom.
